## TERMS AND CONDITIONS OF SALE

In offering the following list of stock, we wish to emphasize the fact that it is grown on non-irrigated soil under natural growing conditions and is well ripened before digging. The long growing season and plentiful rainfall of the Willamette Valley are conducive to rapid growth but proper maturing of all stock is easily controlled by cultivation.

**ORDERS.** All stock is quoted subject to previous sale and all prices are made for use of established nurserymen only. All orders should be in lots of ten or multiples of ten.

**TERMS.** The usual terms are offered to those of established credit or whose responsibility is known to us. Satisfactory references are required from unknown parties.

**SHIPPING.** In making our Eastern shipments we use combination or pool cars to several distributing points throughout the East and Middle West. This greatly reduces the freight charges and makes our stock as reasonable as any.

**PACKING** and boxing or baling are extra, charges being made at cost. No charge is made for packing stock in bulk in the car when the stock is going to the consignee of the car.

**CLAIMS** for any cause must be made promptly on receipt of shipment. Any stock rejected must be reported immediately and held for advice from us as to disposition but in no case should it be returned to us without authority. We will cheerfully allow credit for proven unsatisfactory stock but will not entertain claims after stock has been once accepted.

**INSPECTION** certificates will be furnished with each shipment.

We take pleasure in offering this stock to the trade and trust that we may be favored by hearing from you.

Respectfully,

**A. MCGILL & SON.**
